Modern design for  
impressive accents

Döllken Profiles

SURTECO GROUP

# Cubu family

Hard shell – soft  
wall and floor lips

The plastic covering and soft lips provide sufficient protection against moisture, soiling and impacts (e.g. by a vacuum cleaner). The punchable HDF core is thus optimally protected against moisture penetration.

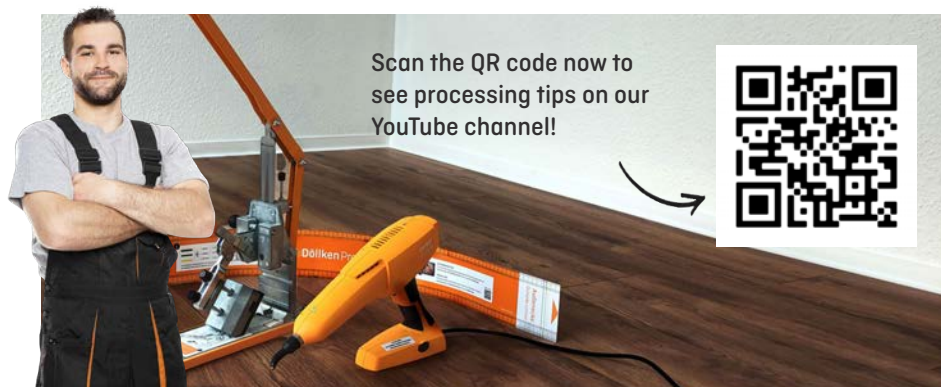

All Cubu models come with a durable, water-repellent plastic mantle. These are quick and easy to work with thanks to their special product features and material quality. The result: a perfect finish for floors which will continue to give you pleasure for many years to come.

**Punchable** – no additional moulded parts are necessary for forming inside and outside corners or to complete a profile only the Döllken punch.

**Quick**, easy and tidy installation: No problem using your Döllken professional tool. Qualitatively flawless results and securely fitted skirting boards.

**Elegant** and high-quality – Our modern core skirting boards fits any floor covering and creates a harmonious connection between the wall and floor with its timeless design.

**No silicone needed** – The **flexible soft lips** adjust to any unevenness. This prevents shadow gaps and reworking with silicone or acrylic is no longer needed. **Profile joints** can be closed up easily using the joint filler, giving the installation **the perfect finish**.

marked with this label  
can be combined on request.

11 and 16 mm wood core (with 13/18 mm overlap)

Cubic Form and Hamburger Style

40, 60, 80, 100 mm heights

Unicoloured plastic surfacing, tactile and chlorine-free  
plastic films, melamine films, real metal foils

Durable and robust  
against impacts

Punchable using the  
Döllken notch punch

Easy to work with, fast and  
easy to install

Water-repellent  
plastic mantle

# The advantages at a glance

- ✓ Qualitatively high-value skirting
- ✓ Can be mitred: Closed corners, no visible gaps between cut edges or due to silicone or mouldings
- ✓ Impact-proof and resistant to humidity
- ✓ Easy installation with Döllken system tools
- ✓ Suitable for all types of flooring, XL version especially designed for laminates
- ✓ Greenguard and Blue Angel\* certified, safe to use in sensitive environments, such as schools and health facilities

\*With the exception of Cubu Premium and Cubu Stone & Style

The advantage is clear: Better product and working characteristics when compared to film-coated MDF boards.

Cubu flex life:

Conventional skirting boards:

# Our environmental promise

[www.blauer-engel.de/uz176](http://www.blauer-engel.de/uz176)

The Cubu flex life has been awarded the Blue Angel because of its particular environmental friendliness (except for: Cubu Premium and Cubu Stone & Style).

## Greenguard-certified:

Cubu meets the most stringent and extensive requirements in terms of the reduced emission of chemicals into indoor air and can thus be used in sensitive environments such as schools and health facilities.

TCF  
totally  
chlorine-  
free

## Made from chlorine-free

plastic, and hence ISO 16000-certified and low-emission. This eliminates the risk of dioxin emissions in the event of a fire.

- ✓ No health risks
- ✓ Low emission & pollutant
- ✓ wood from sustainable forestry

# The right skirting for every requirement

## Cubu flex life

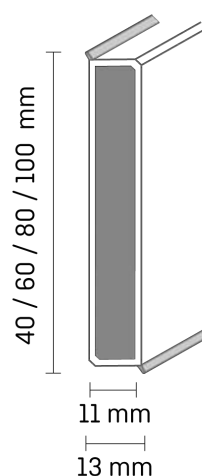

myCUBU

As standard, Cubu flex life provides 13 mm of coverage and comes in four different heights (40, 60, 80 and 100 mm) and seven different colours. Universal corner blocks can be used as inside or outside corners and offer an alternative to the Döllken punch.

\*Colour only available for 40, 60 and 80 mm heights!

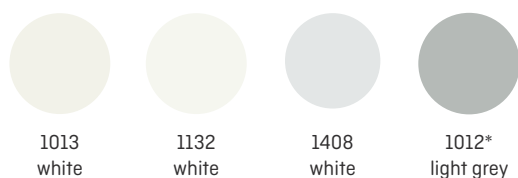

\*\*Colour only available for 60, 80 and 100 mm heights!

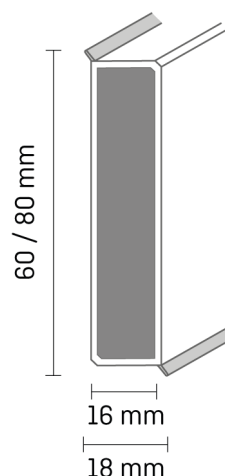

## Cubu flex life XL

myCUBU

The XL version has a profile width of 16 mm, and its maximum coverage of 18 mm provides the optimal solution for extra-large expansion joints such as when laying laminates. The profile comes in two different heights, 60 and 80 mm, and four different colours.

\*Only available for 80 mm height

# Cubu flex life Premium

myCUBU

Cubu flex life Premium's special feature is immediately visible: The surface is a highly durable real metal film. It is ideal as a highlight and addition to a wide range of designer installations. Cubu flex life Premium is available in two heights (60 and 80 mm), provides 13 mm of coverage and comes in two different colours.

## Hamburger Style & Hamburger Style 80 slim

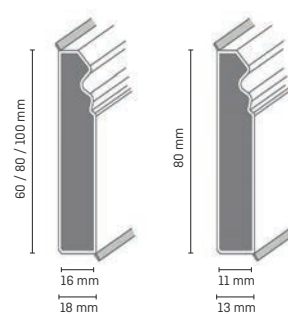

This combines the proven style of a tried-and-tested classic wooden skirting board with the outstanding working properties of a core skirting board. The result is plastic-coated, dimensionally stable and significantly more resistant skirting. Hamburger Style is the optimal solution for extra-large expansion joints.

The popular Hamburger Style 80 is now also available in a slim version!

\* only available for 60 mm and 80 mm heights

\*\* only available for Hamburger Style 80 slim
